

# Unit 09 Problem Set Submission Form

## Overview

Your Name	Hendi Kushta
Your SU Email	hkushta@syr.edu

## Instructions

Put your name and SU email at the top. Answer these questions all from the lab. When asked to include screenshots, please follow the screen shot guidelines from the first lab.

Remember as you complete the problem sets it is not only about getting it right / correct. We will discuss the answers in class so it's important to articulate anything you would like to contribute to the discussion in your answer:

- If you feel the question is vague, include any assumptions you've made.
- If you feel the answer requires interpretation or justification provide it.
- If you do not know the answer to the question, articulate what you tried and how you are stuck.

This how you receive credit for answering questions which might not be correct.

## Questions

Answer these questions using the problem set submission template. You will need to provide a screen shot for each answer. Please follow the guidelines for submitting a screenshot.

1. Record a video of your working PowerApps completed from Steps 1 through 5 in the walk through. Make sure your video demonstrates all of the features (employees, vacation requests, view/add/edit a request) approve a request and approved requests. Post a link to your video so that I can review your PowerApps. Publish your video as a public link so I may access without credentials. You can post to YouTube, Vimeo, or video.syr.edu. All you need to include is a link.

<https://drive.google.com/file/d/18CfjNB7RsFPWH3yOy7mBbQ8xozfvApey/view>

### How do I record my screen?

If you are not familiar with screen recording software:

- SU Offers Kaltura go to <https://video.syr.edu>, login with netid and password, click Add new Kaltura Capture and follow the instructions. You download Kaltura Capture to your computer.

- You can also try these in Chrome Browser tools:  
<https://www.screencastify.com/> or <https://screencast-o-matic.com/> These services both use chrome extensions.
- Or you can start on your pro journey now, and use what your prof uses: OBS <https://obsproject.com/> . If you feel that's too much, try the more polished Streamlabs version <https://streamlabs.com/streamlabs-obs>.

## Reflection

Use this section to reflect on your learning. To achieve the highest grade on the assignment you must be as descriptive and personal as possible with your reflection.

1. What are the key things you learned through the process of completing this assignment?

How to create an application using power apps and how to connect and configure azure database.

2. What were the challenges or roadblocks (if any) you encountered on the way to completing it?

Approve request screen took me time to show only the supervisors names not ID, and also to click the tick icon. I had also some issues with my microphone while I was trying to create the video.

3. Were you prepared for this assignment? What can you do to be better prepared?

Yes, I was

4. Now that you have completed the assignment rate your comfort level with this week's material. This should be an honest assessment: (choose one)

4 ==> I understand this material and can explain it to others.

**3 ==> I understand this material.**

2 ==> I somewhat understand the material but sometimes need guidance from others.

1 ==> I understand very little of this material and need extra help.
